

Cookies Notice

Food Ingredient Technology Company Limited (“Company”) may use cookies or other similar technologies (“cookies”) on Company’s websites to help you receive better experiences from our service and allows FIT to improve quality of services to better serve your needs.

What are cookies?

Cookies are text files containing small amounts of information which are downloaded to your device when you visit a website. Cookies are then sent back to the originating website on each subsequent visit, or to another website that recognises such cookies. Cookies are useful because they allow a website to recognise your device.

The use of cookies and similar technologies is not limited to traditional websites and web browsers. Mobile applications which commonly communicate with websites and web services also can set cookies. Cookies do lots of different jobs, like letting you navigate between pages smoothly and efficiently, remembering your preferences, and generally improve the user experience. They can also help to ensure that advertisements you see online are more relevant to you and your interests.

Types of cookies

- **Strictly Necessary cookies**

This type of cookies is crucially necessary for the website as it enables you to visit and use the website safely. These cookies are stored and removed after you leave the website.

- **Analytic/Performance cookies**

This type of cookies helps Company to analyze or evaluate performances to enhance Company’s understanding in interests of users, e.g. processing of number of website visitors, number of pages visited, etc. Company will use this data to improve the operation of the website to meet your needs and enhance your visits.

- **Targeting cookies or advertising cookies**

This type of cookies is recorded in your devices to collect data related to visits and links that you follow or visit to understand your needs. It will be used to improve and develop the website and promotional campaigns to suit your interests.

- **Functionality cookies**

This type of cookies will help Company to “recognize” you during your visits and adapt the website to meet your uses and preferences to facilitate you on next visit, e.g. your name recognition, font size adjustment, languages and other parts of the website pages. However, the data used in processing is anonymous or cannot identify your identity, and personally identifiable information will not be collected, e.g. name, e-mail, etc.
